

XXL REHAB[®]

PATIENT LIFT AND SLINGS

The XXL-Rehab Patient Lift is designed to make hoisting a simple and functional task. The lift is both easy to maneuver, uncomplicated to operate and provides security for both user and operator.

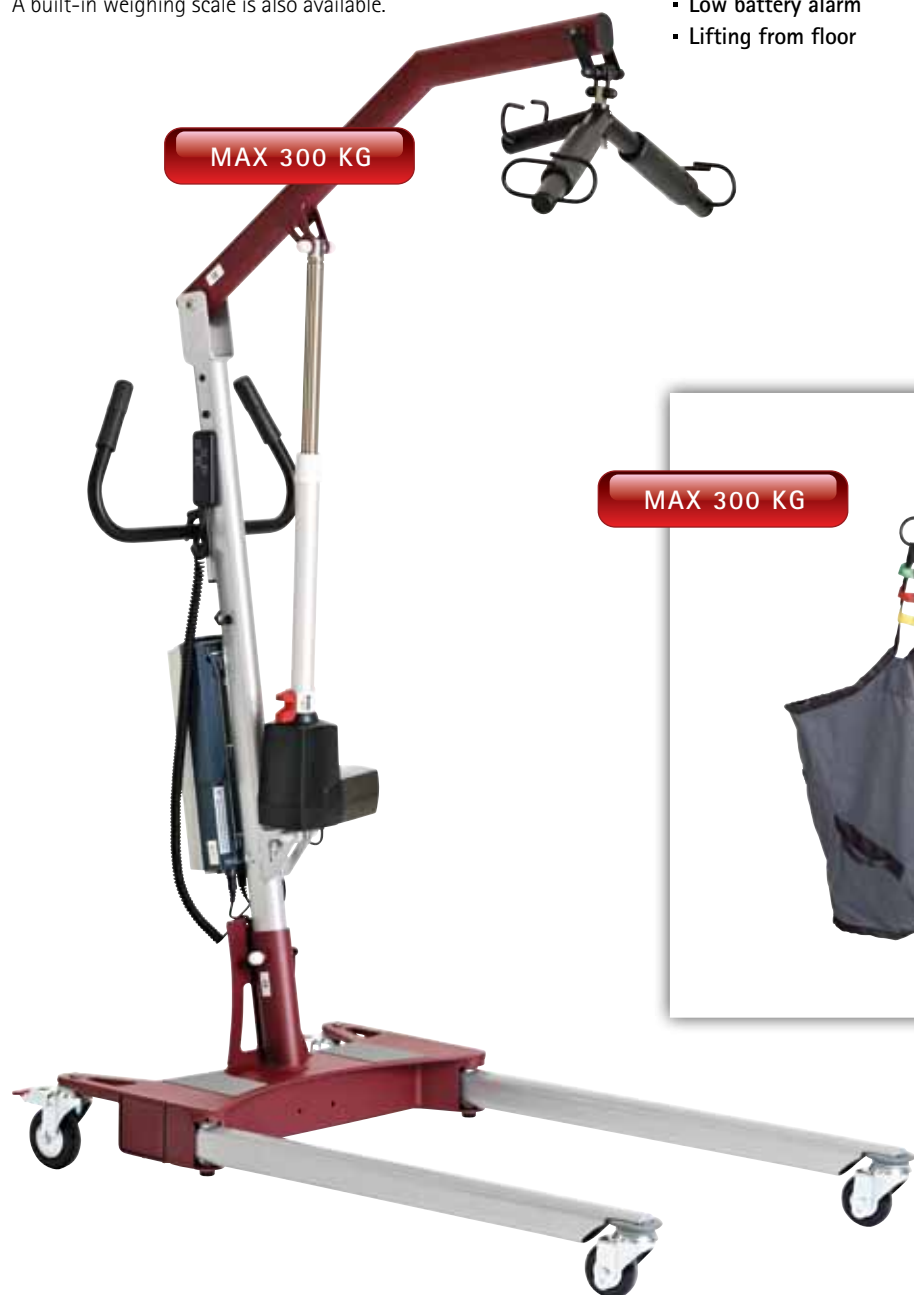

The lift is supplied with an electrical V-shaped leg-opening mechanism with a maximum loading capacity of 300 kg.

A built-in weighing scale is also available.

The XXL-Rehab Lifting sling provides comfort and safety for transfer in lying and seated positions.

Our slings can be used on any mobile or ceiling-mounted lift that utilises a hanger with hooks for sling strap attachment.

- Low battery alarm
- Lifting from floor

**STRONGLY ENGINEERED AND FUNCTIONALLY DESIGNED
EXCLUSIVELY FOR BARIATRIC USERS!**
